WORK AND EXPERIENCE

VK Consultant Group

While ineterning at VK consultant, I was tasked with reasearching and developing a mobile application for the company. We developed the application using React Native with Expo CLI. We also integrated a Login Screen authentication with Google Firebase. We maintained and updated all of the companies existing websites.

Moving Mountains Animal Rescue

While Working with the non-profit, I was tasked with building a new website for the company. This included gathering assets, creating a SQL server hosting site, and building site with a content management system. I currently manage the site.

Pinkerton's Barbecue

August 2021- Current

Pitmaster- Maintain offset ssmoker temperatures by keeping fires burning in firebox. Trim and prepare different types of meat to be placed in vsmoker. Maintain a clean work environments and comply with the city health inspection ordinances.

Southern Flowmeter

July 2018 - October 2021

Field meter technician. Uninstall and re-install meters meters in an assigned area, in order to test and ensure they are functioning properly. We test different types of meters at their specific testing rates. Knowledgeable about meter types, testing rates, and TCEQ basic water operations.

Houston Deli Provisions

Adobe Certified Professional

Cascading Style Sheet skill badge (Linkedin)

About me

Some of my hobbies include learning how to play musical instruments such as guitar and piano. I also enjoy working on vintage motorcylces and small motors. I feel the most accomplished when I learn something new, and I am able to implement those skills to help me in everyday task in life.
