## WORK AND EXPERIENCE

### Kickstreet Digital Marketing

January2024 - Current

Collaborate remotely with a dynamic team to design, develop, and maintain fully responsive and visually appealing websites. Special-ize in using content management systems (CMS) such as WordPress, leveraging Elementor to build and implement advanced functionality. Ensure a clean, modern design that enhances user experience and meets client specifications. Focus on optimizing site performance, adhering to best practices in web development, and integrating SEO strategies for improved search engine visibility.

### VK Consultant Group(internship)

October 2022- December 2022

While ineterning at VK consultant, I was tasked with reasearching and developing a mobile application for the company. We developed the application using React Native with Expo CLI. We also integrated a Login Screen authentication with Google Firebase. We maintained and updated all of the companies existing websites.

### Houston Small Bussiness Marketing(internship)

October 2023 - December 2023

As an SEO Specialist and Web Developer, I have collaborated with a team to master best SEO practices, focusing on organic search results and utilizing Google Search Console. Through comprehensive training at HOUSBM, I acquired multiple SEMRUSH site audit certi-ficates. I have managed client websites using WordPress with Elemen-tor, ensuring optimal performance and enhancing user experience.

### Moving Mountains Animal Rescue

May 2022- Current

While Working with the non-profit, I was tasked with building a new website for the company. This included gathering assets, creating a SQL server hosting site, and building site with a content management system. I currently manage the site.

### Southern Flowmeter

July 2018 - October 2021

Field meter technician. Uninstall and re-install meters meters in an assigned area, in order to test and ensure they are functioning properly. We test different types of meters at their specific testing rates. Knowledgeable about meter types, testing rates, and TCEQ basic water operations.

### Certificates/Awards

Adobe Certified Professional

Cascading Style Sheet skill badge (Linkedin)

### About me

Some of my hobbies include learning how to play musical instruments such as guitar and piano. I also enjoy working on vintage motorcylces and small motors. I feel the most accomplished when I learn something new, and I am able to implement those skills to help me in everyday task in life.
